## **Batting**

- .In 2023, the overall performance of all teams was strong.
- . The top run-scorers consistently hit the most boundaries, including both sixes and fours.
- .Notably, only three players managed to score the highest runs with a relatively lower number of balls faced.

## **Bowling**

- .The IPL has seen some dominant bowlers, with Chahal leading in wickets.
- .Controlling wides and no-balls is crucial, as these extras can significantly impact match outcomes.
- .Bowlers in Mumbai and Kolkata have been particularly effective in restricting runs.
